About this segment Green Acres

This is the

#1

dominant segment
for this area

In this area

18.8%

of households fall
into this segment

In the United States

3.3%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

The Green Acres lifestyle features country living and self-reliance. Avid do-it-yourselfers, they maintain and remodel their homes, with all the necessary power tools to accomplish the jobs. Gardening, especially growing vegetables, is a priority, again with the right tools, tillers, tractors, and riding mowers. Outdoor living features a variety of sports: hunting and fishing, motorcycling, hiking and camping, and even golf.

Our Neighborhood

- This large segment is concentrated in rural enclaves in metropolitan areas. Primarily (not exclusively) older homes with acreage; new housing growth in the past 15 years. Single-family, owner-occupied housing, with a median value of \$235,500. An older market, primarily married couples, most with no children.

Socioeconomic Traits

- Education: More than 60% are college educated. Labor force participation rate is high at 66.8%. Income is derived not only from wages and salaries but also from self-employment (more than 13% of households), investments (27% of households), and increasingly, from retirement. They are cautious consumers with a focus on quality and durability. Comfortable with technology, more as a tool than a trend: banking or paying bills online is convenient; but the Internet is not viewed as entertainment. Economic outlook is professed as pessimistic, but consumers are comfortable with debt, primarily as home and auto loans, and investments.

Market Profile

- Purchasing choices reflect Green Acres residents' country life, including a variety of vehicles, from trucks and SUVs to ATVs and motorcycles, preferably late model. Homeowners favor DIY home improvement projects and gardening. Media of choice are provided by satellite service, radio, and television, also with an emphasis on country and home and garden. Green Acres residents pursue physical fitness vigorously, from working out on home exercise equipment to playing a variety of sports. Residents are active in their communities and a variety of social organizations, from charitable to veterans' clubs.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2022. About this segment

Middleburg

This is the

#2

dominant segment for this area

In this area

17.5%

of households fall into this segment

In the United States

3.0%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Middleburg neighborhoods transformed from the easy pace of country living to semirural subdivisions in the last decade, as the housing boom spread beyond large metropolitan cities. Residents are traditional, family-oriented consumers. Still more country than rock and roll, they are thrifty but willing to carry some debt and are already investing in their futures. They rely on their smartphones and mobile devices to stay in touch and pride themselves on their expertise. They prefer to buy American and travel in the US. This market is younger but growing in size and assets.

Our Neighborhood

- Semirural locales within metropolitan areas. Neighborhoods changed rapidly in the previous decade with the addition of new single-family homes. Include a number of mobile homes. Affordable housing, median value of \$175,000 with a low vacancy rate. Young couples, many with children; average household size is 2.75.

Socioeconomic Traits

- Education: 65% with a high school diploma or some college. Labor force participation typical of a younger population at 66.7%. Traditional values are the norm here, faith, country, and family. Prefer to buy American and for a good price. Comfortable with the latest in technology, for convenience (online banking or saving money on landlines) and entertainment.

Market Profile

- Residents are partial to domestic vehicles; they like to drive trucks, SUVs, or motorcycles. Entertainment is primarily family-oriented, TV and movie rentals or theme parks and family restaurants. Spending priorities also focus on family (children's toys and apparel) or home DIY projects. Sports include hunting, fishing, bowling, and baseball. TV and magazines provide entertainment and information. Media preferences include country and Christian channels.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2022. About this segment

Salt of the Earth

This is the

#3

dominant segment for this area

In this area

11.6%

of households fall into this segment

In the United States

2.8%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Salt of the Earth residents are entrenched in their traditional, rural lifestyles. Citizens are older, and many have grown children that have moved away. They still cherish family time and also tending to their vegetable gardens and preparing homemade meals. Residents embrace the outdoors; they spend most of their free time preparing for their next fishing, boating or camping trip. The majority has at least a high school diploma or some college education; many have expanded their skill set during their years of employment in the manufacturing and related industries. They may be experts with DIY projects, but the latest technology is not their forte. They use it when absolutely necessary but seek face-to-face contact in their routine activities.

Our Neighborhood

- This large segment is concentrated in the Midwest, particularly in Ohio, Pennsylvania, and Indiana. Due to their rural setting, households own two vehicles to cover their long commutes, often across county boundaries. Homeownership rates are very high. Single-family homes are affordable, valued at 25% less than the national market. Nearly two in three households are composed of married couples; less than half have children at home.

Socioeconomic Traits

- Steady employment in construction, manufacturing, and related service industries. Completed education: 40% with a high school diploma only. Household income just over the national median, while net worth is nearly double the national median. Spending time with family is their top priority. Cost-conscious consumers, loyal to brands they like, with a focus on buying American. Last to buy the latest and greatest products. Try to eat healthy, tracking the nutrition and ingredients in the food they purchase.

Market Profile

- Outdoor sports and activities, such as fishing, boating, hunting, and overnight camping trips are popular. To support their pastimes, truck ownership is high; many also own an ATV. They own the equipment to maintain their lawns and tend to their vegetable gardens. Residents often tackle home remodeling and improvement jobs themselves. Due to their locale, they own satellite dishes, and have access to high-speed internet connections like DSL. These conservative consumers prefer to conduct their business in person rather than online. They use an agent to purchase insurance.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2022. About this segment

Southern Satellites

This is the

#4

dominant segment for this area

In this area

10.6%

of households fall into this segment

In the United States

3.1%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Southern Satellites is the second largest market found in rural settlements but within metropolitan areas located primarily in the South. This market is typically slightly older, settled married-couple families, who own their homes. Two-thirds of the homes are single-family structures; almost a third are mobile homes. Median household income and home value are below average. Workers are employed in a variety of industries, such as manufacturing, health care, retail trade, and construction, with higher proportions in mining and agriculture than the US. Residents enjoy country living, preferring outdoor activities and DIY home projects.

Our Neighborhood

- About 78% of households are owned. Married couples with no children are the dominant household type, with a number of multigenerational households. Most are single-family homes (67%), with a number of mobile homes. Most housing units were built in 1970 or later. Most households own 1 or 2 vehicles, but owning 3+ vehicles is common.

Socioeconomic Traits

- Education: almost 40% have a high school diploma only; 45% have college education. Labor force participation rate is 59.1%, slightly lower than the US. These consumers are more concerned about cost rather than quality or brand loyalty. They tend to be somewhat late in adapting to technology. They obtain a disproportionate amount of their information from TV, compared to other media.

Market Profile

- Usually own a truck; likely to service it themselves. Frequent the convenience store, usually to fill up a vehicle with gas. Typical household has a satellite dish. Work on home improvement and remodeling projects. Own a pet, commonly a dog. Participate in fishing and hunting. Prefer to listen to country music and watch Country Music Television (CMT). Read fishing/hunting and home service magazines. Partial to eating at low-cost family restaurants and drive-ins. Use Walmart for all their shopping needs (groceries, clothing, pharmacy, etc.).

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Update Frequency: Annually.

About this segment

Workday Drive

This is the
#5
dominant segment
for this area

In this area
9.1%
of households fall
into this segment

In the United States
3.1%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Workday Drive is an affluent, family-oriented market with a country flavor. Residents are partial to new housing away from the bustle of the city but close enough to commute to professional job centers. Life in this suburban wilderness offsets the hectic pace of two working parents with growing children. They favor time-saving devices, like banking online or housekeeping services, and family-oriented pursuits.

Our Neighborhood

- Workday Drive residents prefer the suburban periphery of metropolitan areas. Predominantly single family, homes are in newer neighborhoods, 34% built in the 1990s, 31% built since 2000. Owner-occupied homes have high rate of mortgages at 68%, and low rate vacancy at 4%. Median home value is \$257,400. Most households are married couples with children; average household size is 2.97. Most households have 2 or 3 vehicles; long travel time to work including a disproportionate number commuting from a different county

Market Profile

- Most households own at least 2 vehicles; the most popular types are minivans and SUVs. Family-oriented purchases and activities dominate, like 4+ televisions, movie purchases or rentals, children's apparel and toys, and visits to theme parks or zoos. Outdoor activities and sports are characteristic of life in the suburban periphery. They attend sporting events, as well as participate in them like bicycling, jogging, golfing, and boating. Home maintenance services are frequently contracted, but these families also like their gardens and own the tools for minor upkeep, like lawn mowers, trimmers, and blowers.

Socioeconomic Traits

- Education: 40.5% college graduates; more than 72% with some college education. High labor force participation rate at 71%; 2 out of 3 households include 2+ workers. Connected, with a host of wireless devices, anything that enables convenience, like banking, paying bills, or even shopping online. Well insured and invested in a range of funds, from savings accounts or bonds to stocks. Carry a higher level of debt, including first and second mortgages and auto loans.
